Most communities have one of two systems for trash collection. Shorewood has an open collection system, where residents choose any of the haulers licensed by the city. Some cities use a collection system in which the City manages the system, negotiates prices and standardizes services for residential trash collection.

10. Would you favor or oppose the City of Shorewood changing from the current system in which residents are free to choose their trash hauler to a system where the City manages trash collection? (WAIT FOR RESPONSE) Do you feel strongly that way?
