## STRAWBERRY LANE RECONSTRUCTION AND DRAINAGE PROJECT

June 2021 Update

### ABOUT THE PROJECT

The City of Shorewood is proposing to reconstruct Strawberry Lane, install a trail, watermain, and improve drainage issues in the surrounding area. The project will include watermain and improving the streets of Peach Circle and Strawberry Court. This project is part of the city's Capital Improvement Program (CIP), with construction of Smithtown Pond (east of the Peach Circle cul de sac along the north side of the LRT) slated for 2021/2022 and the construction of Strawberry Lane, Peach Circle, and Strawberry Court slated for 2022. The feasibility study has been completed and final design is beginning. City staff and council have received feedback from residents related to the proposed eight foot wide trail and five foot wide grass buffer strip between the trail and street. Staff is looking at alternative options for this corridor and will present information at an **online neighborhood meeting Tuesday, June 22, 2:00 p.m.** The link to the meeting will be posted on the city's website ([ci.shorewood.mn.us/current\\_meeting](http://ci.shorewood.mn.us/current_meeting)) approximately 30 minutes in advance; it will be recorded.

### WHAT TO EXPECT

The online neighborhood meeting will provide a background of the overall project and an overview of proposed options for trail and sidewalk combinations that could serve the residents of Strawberry Lane, Minnewashta Elementary, and the surrounding area. After the meeting the city will mark various components of the design, such as the curb, outer edge of the trail and property lines, so that they can be viewed and discussed. Once staked, the city engineer will meet with residents and respond to specific questions about the project impacts. At the **July 26** council meeting, staff will seek final direction from the council on which sidewalk and trail option to implement in to the project.

### TENTATIVE TIMELINE

#### Neighborhood Meeting #1

Tuesday, June 22, 2:00 p.m.

#### Proposed Project Staked

June 23-25

#### Small Onsite Neighborhood Meetings

Schedule with city engineer at email or phone number below

#### City Council Meeting to discuss trail options

July 26, 2021 7:00PM
