NOTICE OF ROADWAY CLOSURE AND WATERMAIN REPAIR

Due to a watermain repair, the City of Shorewood will be forced to close a section of Covington Road from Vine Ridge Road to Vine Hill Road on **TUESDAY, JUNE 22ND, 2021**, in addition to interrupting water service in the same area, as shown on the following page.

WHEN: TUESDAY, JUNE 22ND, 2021

WHERE: COVINGTON ROAD BETWEEN VINE RIDGE ROAD AND VINEHILL ROAD.

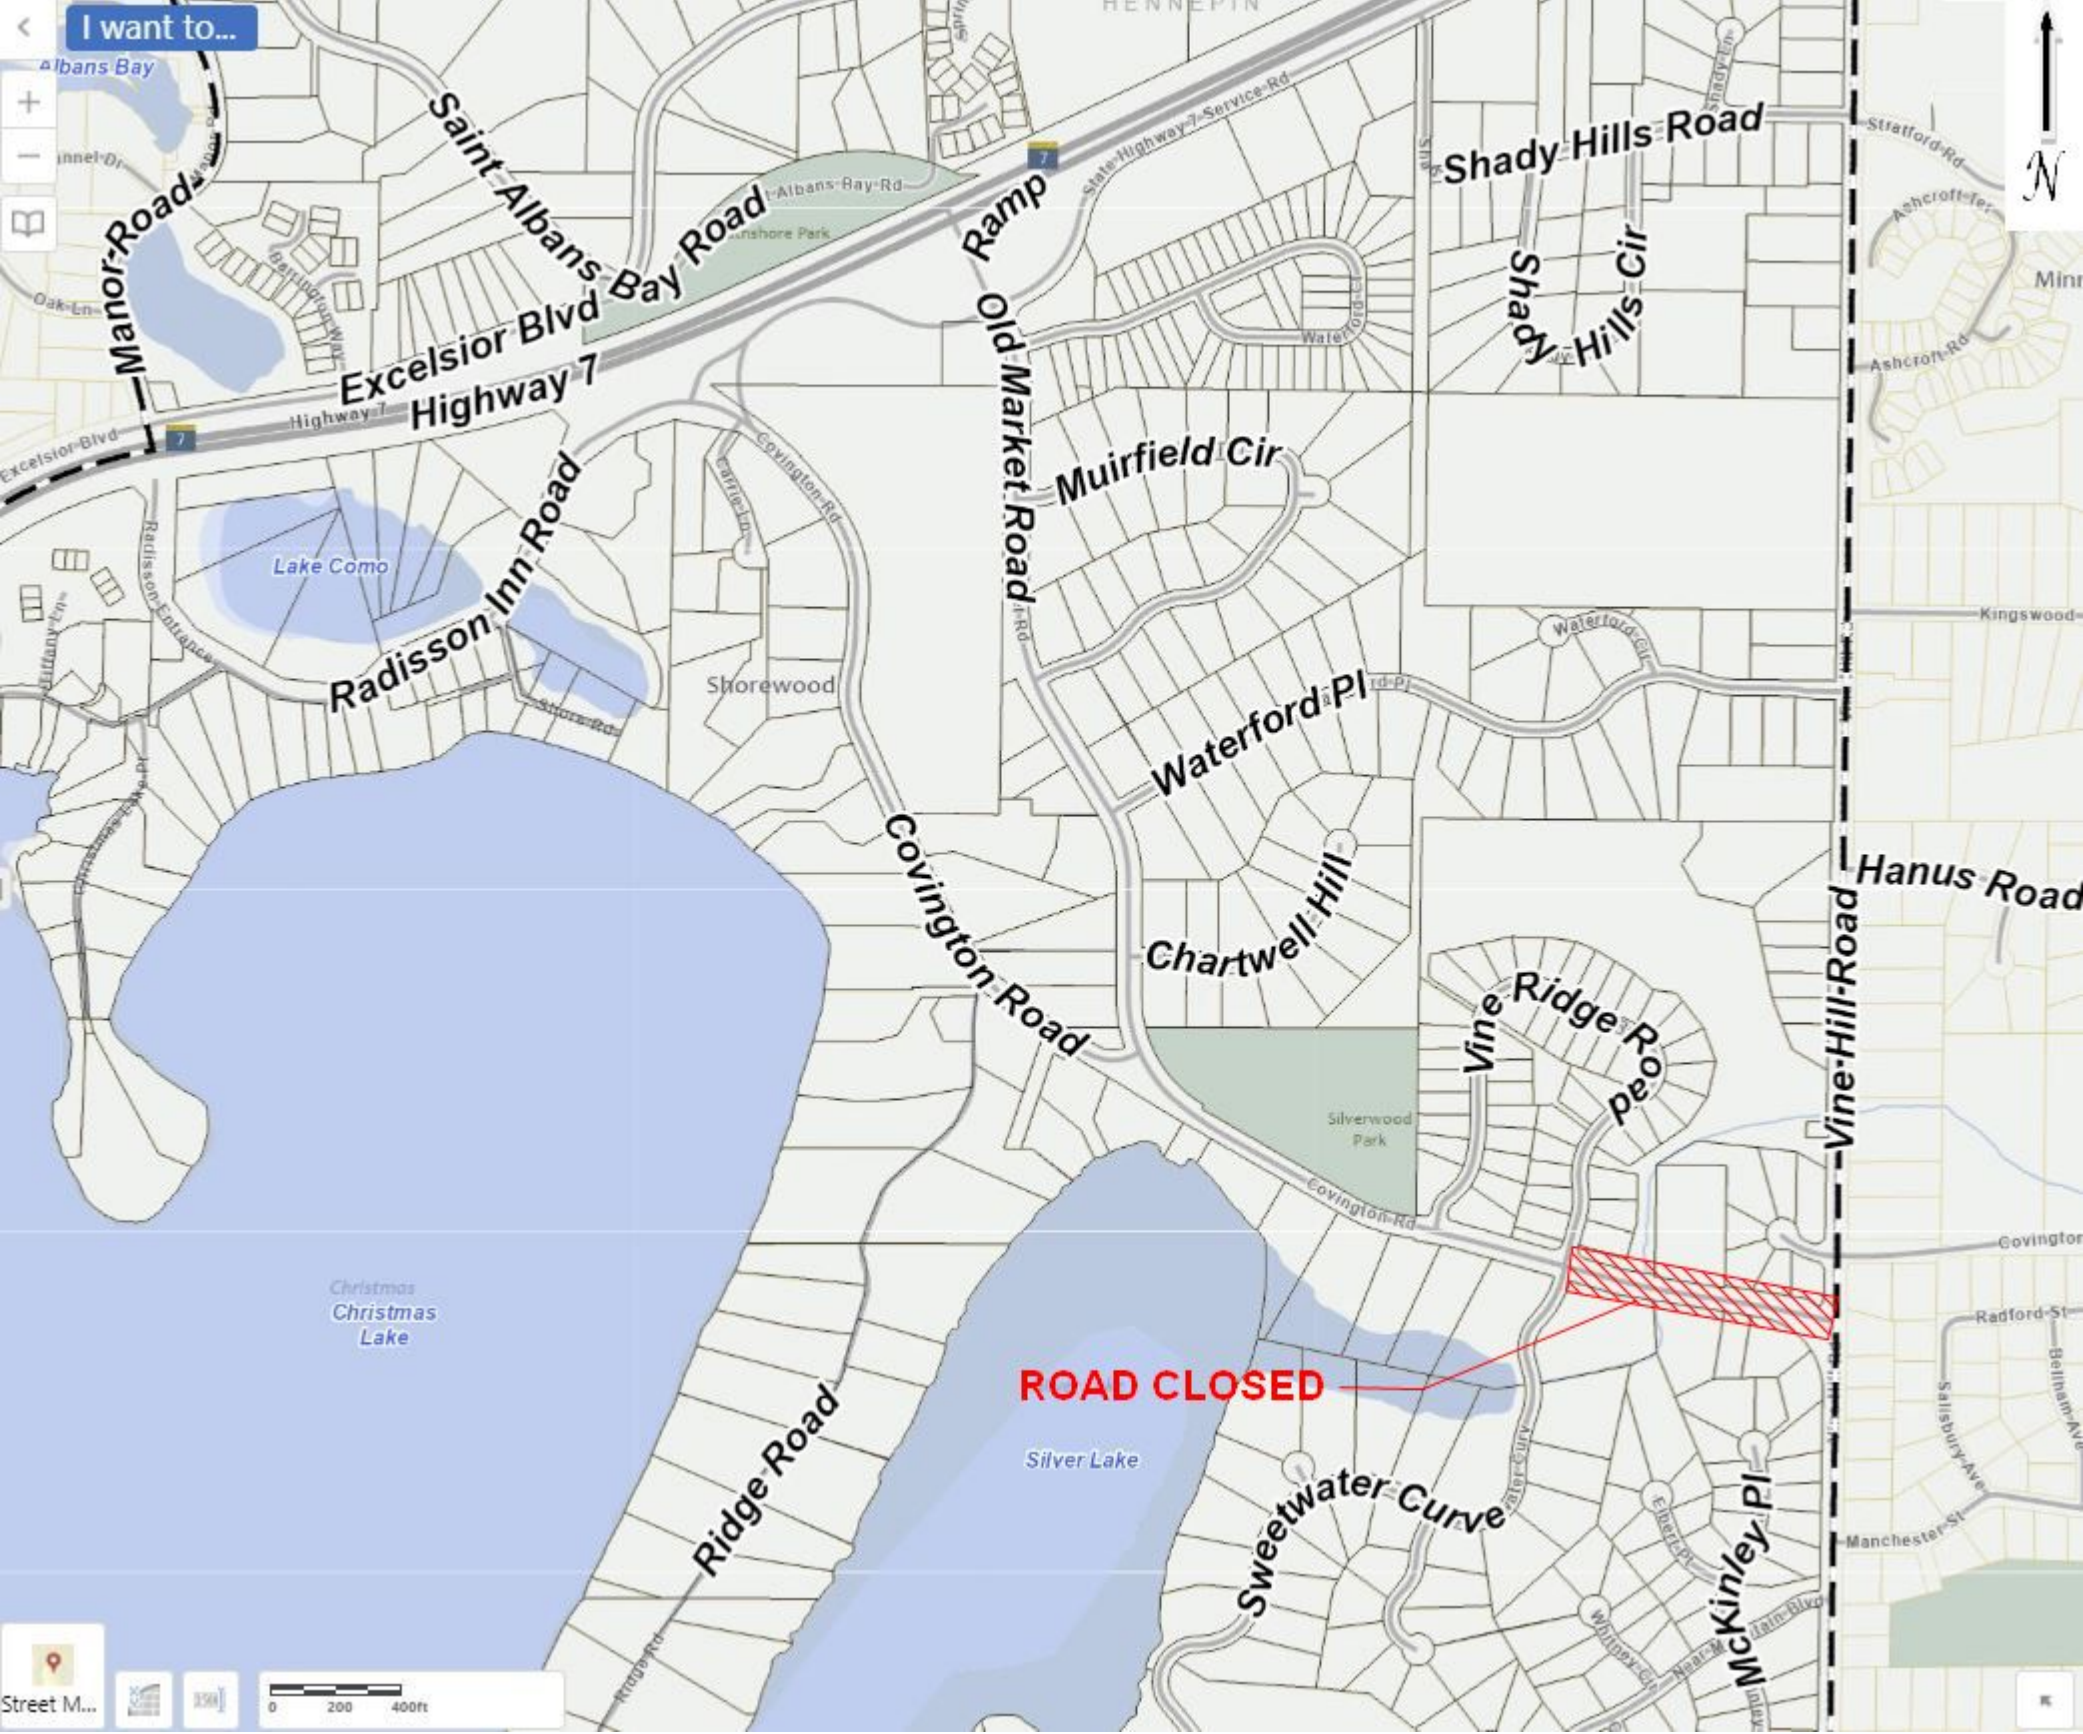

EXPECTED TIME OF CLOSURE AND WATER OUTAGE 8:00 A.M. To APPROXIMATELY 5:00 P.M.

PRECAUTIONS TO TAKE:

1. If you are within the specified area, turn off the water service to your home by closing one or both of the valves, located directly before the water meter or immediately after the water meter in your home. Failure to shut down the system should not cause any damage, but is done as a precautionary measure.
2. Residents who may be at home during this time may want to fill a bathtub or containers with water for operation of toilets. Toilets may be operated by manually filling the tank and flushing as usual.
3. Sanitized containers can also be filled and refrigerated for drinking water needs.
4. Repairs to the system may cause a noticeable increase in visible iron particles or discoloration of the water, similar to hydrant flushing season. Avoid doing light colored laundry while high iron content is present in the water. If iron levels should result in staining of laundry or fixtures, we would recommend a product available at most grocery stores named "Iron Out." This product has typically removed any staining present due to iron.
5. Please keep children away from the construction area. We are also asking motorists to slow down when traveling within the construction area.

Please note that the times provided are based upon what is anticipated to do the repairs required. Unforeseen conditions may increase the time required to restore water service to your home. Please plan accordingly.

If you have any questions, please do not hesitate to contact Larry Brown at Lbrown@shorewoodpw.com or Shorewood City Hall at (952) 960-7900.
