## 2017 Street Reclamation Project

Howards Point Rd, Summit Ave, Oak Ridge Cir, Kathleen Crt, and Echo Rd

May 14, 2018

### PROJECT CONTACTS

**Matt Havlik**  
Onsite Project Rep  
(612) 246-9347

**Katie Koscielak**  
Project Engineer  
(612) 282-3641

**Alyson Fauske**  
City Engineer  
(952) 960-7910

- > Please observe posted detour and warning signs.
- > Please do not park vehicles on streets under construction.
- > Slow down and watch for uneven surfaces.
- > Stay alert! Watch for signs, equipment, and workers.
- > Please remind children to stay away from the construction site, equipment, and stockpiles of materials.
- > Access through the site may change throughout the day as construction progresses.
- > Your patience is appreciated!

### Project Schedule Update

The Construction season is underway! The Contractor is anticipated to return to the project this week, **depending on weather**. Construction operations are anticipated to start on Howards Point Road and continue to the remaining roadways (Echo Road, Oak Ridge Circle, Kathleen Court, and Summit Avenue). The anticipated schedule is as follows:

1. Installation of traffic control, erosion control and temporary mailboxes
2. Reclamation of the existing bituminous pavement and miscellaneous removals
3. Excavation and installation of pipe culverts
4. Grading and placement of bituminous pavement
5. Restoration and project cleanup

**Please be aware this schedule may change as a result of weather conditions or other activities beyond the Contractor's control.**

### Property Owner Responsibility

The City of Shorewood and WSB strongly encourage all residents and property owners to use the City website for construction activity updates, and to sign up for construction activity email, text, or Facebook messages. The website is located at [http://www.ci.shorewood.mn.us/pages/pworks/seasonal\\_2017.html](http://www.ci.shorewood.mn.us/pages/pworks/seasonal_2017.html)

**Distribution of individual newsletters is not anticipated for this project because the information is usually out of date due to weather conditions, or other unforeseen construction conflicts.**

Residents should expect traffic delays due to the construction activities and plan their schedules accordingly. Fulltime driveway access during the working hours (7:00 am - 7:00 pm Monday – Friday and 9:00 am – 5:00 pm Saturday) may not be available, but the Contractor is required to make accommodations for accessibility.

If you have irrigation systems or underground pet fences along the roadway. It will help the contractor and Matt Havlik, the project onsite representative, if you mark the locations of these systems.

If you have any landscaping items that you would like to save and reinstall yourself after construction, please remove these items from the City right-of-way. If you are unsure whether your landscaping items will be impacted by construction, please contact Matt to schedule a meeting at your residence.

If you have special needs for access or if you have an appointment and you need to leave by a certain time and day, please let Matt know at least a day ahead of time so he can help make arrangements for access.

If you are anticipating a special delivery, open house, or any other activity during the construction schedule, please notify Matt of the time and date this will occur. The contractor and project staff will do their best to provide access as necessary.

### Thank you for your patience

The City, WSB, and the Contractor will do their best to complete the project in a timely fashion and minimize impacts. Construction does have a way of creating dust, noise, vibrations, and inconvenience. We appreciate your patience through this construction project and if you have questions, please contact us.
